the Philadelphian was game and slood his punishment to the very last.

Higen was badly used up, heving his face well battered by Larkins's left-hand jabs and clean straight rights. Larkins on the other hand, was scarcely marked at all, and to have met him on the street an hour later one could acarcely be convinced that he had been in a fight at all.

The last two rounds of the fight were simply brotail, and Hayan's punishment was so severe that all presents were glad when the fight was concluded.

Larkins still stands the undefeated 122-pound champion, while Hagen met with the first defeat of his life at the hands of an exceptionally ciever two-banded fighter.

The Philadelphia people had the grantest confidence in the ability of Hagne, and backed him with their bottom doflar. In consequence thereof, much Philadelphia money is in this city to-day.
